

Art Project

Unicorn Horn Headband

Materials:

- Craft foam or stiff felt sheets (in desired unicorn horn color)
- Headband (plastic or fabric-covered)
- Scissors
- Hot glue gun and glue sticks
- Decorative materials (such as glitter, sequins, ribbons, flowers, etc.)
- Optional: Paints or markers for decorating

Art Project

Unicorn Horn Headband

Instructions:

1. Prepare the Horn Base:

- Cut out a triangle shape from the craft foam or stiff felt sheet. The size of the triangle will determine the size of your unicorn horn. Make it taller for a longer horn or shorter for a smaller horn.
- Roll the triangle tightly from the wider end to the narrower end to create a cone shape. Adjust the tightness of the roll to achieve the desired horn thickness.
- Use hot glue along the seam to secure the cone shape. Hold it in place until the glue sets.

2. Attach the Horn to the Headband:

- Apply hot glue to the bottom (wider end) of the unicorn horn.
- Carefully place the glued end onto the headband where you want the horn to sit. Hold it in place until the glue sets completely. Make sure the horn is centered on the headband.

3. Strengthen the Attachment (Optional):

- Cut a small piece of craft foam or felt in a circular shape slightly larger than the base of the horn.
- Apply hot glue to the bottom of the horn where it meets the headband.
- Place the circular piece of foam/felt over the glued area to reinforce the attachment. Press down gently and hold until the glue sets.

4. Decorate the Unicorn Horn:

- Now it's time to decorate your unicorn horn! Get creative with glitter, sequins, paint, ribbons, flowers, or any other decorative materials you like.
- Apply hot glue to the horn in small sections and carefully attach your chosen decorations. You can create patterns, add stripes, or make it as colorful and magical as you desire.

5. Finishing Touches:

- Once you're satisfied with the decoration, allow the horn to dry completely.
- If desired, you can add additional embellishments to the headband itself, such as flowers, bows, or more glitter.

6. Wear and Enjoy!
